Frank E. Langley, Publisher.

Entered at the postoffice at Barre as second class matter.

MONDAY, AUGUST 7, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

3,430

copies, the largest paid circulation of any daily paper in this section.

Autoists who wish to travel through Vermont should take the precaution to license their machines. Bennington has shown that it is not safe.

The Newport Express and Standard, which apparently is next to the main spoke, says that it has the best authority for saying that Col. Z. M. Mansur is not and will not be a candidate for lieutenant governor. That should settle one question, at least.

There is a good deal of truth, with a small degree of fiction, which a local correspondent gives in today's columns in connection with fever-breeding cess-pools in public places in this city. We do not lay claim to being the "filthiest" city, as the St. Paul woman is reported to have said concerning us, but there are times when a section of lower Main street rivals a swamp teeming with germs, foul vapors and swarming insects. They are places which the resident would studiously avoid in showing the city to visitors, but how can one cover up a section of the principal thoroughfare of Barre? It is before the public eye, as is the place on Depot Square, to which the correspondent makes reference.

## TOOK THREAT IN EARNEST.

Charles Kent Had Colored Boy Arrested For It.

Montpelier, Aug. 7.—"You won't be alive to take your trip," said Miner Blair, a colored youth, to Charles Kent, who had just paid him for work and then discharged him. Kent will probably take his trip, as the combination has been broken up, and Blair is in the hands of the police and likely to the house of correction of his own. Blair got through working for Kent Saturday, and was paid off. The amount was not satisfactory to Blair, who told Kent so in heated language.

A short time later, Kent went to his barn and found the negro loafing about. It was at this time that the threat was made. Kent left the barn, and on his way to the police station ran across two white youths who were apparently pals of the negro. They were concealed. Kent thinks that the three intended to do him up.

## WITTE IS TIRED.

With His All-Day Trip About Boston Yesterday.

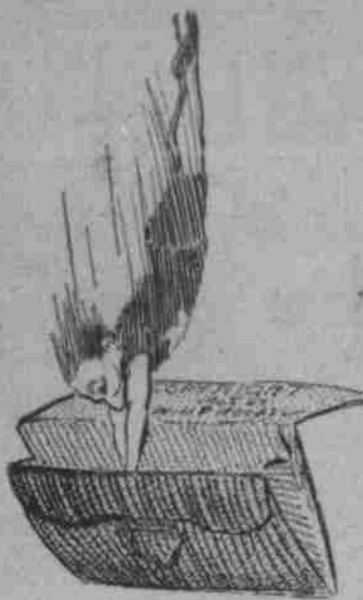

Boston, Aug. 7.—M. Witte, tired by the long trips yesterday, slept late this morning. The greater part of the day was taken up with an automobile trip about the city to see the points of interest. He is not expected to leave for Plymouth before three o'clock this afternoon, arriving there about five o'clock. Three autos will be waiting to take the party to the Wentworth.

## "Yankee Doodle."

The air now known as "Yankee Doodle" is older than the time of Cromwell and was well known in the colonies prior to the Revolution under the name of "Nankie Doodle."

## Scalloped Onions.

Did you ever eat scalloped onions? They are really delicious. This is the plan: Pare, slice and boil the onions in salted water until tender; drain and put in a baking dish suitable to send to table; cover with cream sauce and dust thickly with buttered breadcrumbs and brown in a quick oven.

## Scarlati.

Scarlati, one of the greatest musicians of his day, is now known only by the "Cat Fugue," a comical imitation of the mewling of cats.

## The Rattlesnake.

There is in every rattlesnake a small sac, about the size of a Mexican bean, attached to the intestines. This is filled with a brownish or black fluid, and that fluid is the cure for the bite. If it is applied immediately the patient will not even suffer any swelling and will entirely avoid pain.

## Dutch Gulaan.

At the peace of Breda, in 1667, Surinam, or Dutch Gulaan, on the coast of South America, was assured to the Dutch in exchange for New York.

## Don't Walk Against the Wind.

In one of Oliver Wendell Holmes' books the doctor in the man comes to the front with a suggestion that we all might well profit from. It is in walking for pleasure or for the sake of exercise never to go against the wind. Walk with the prevailing current of air is his advice and then take a covered car back again.

## Water Mains in London.

In London the person who first reports to the water department the bursting of a water main gets a reward of \$5.

## Cape Horn.

Cape Horn was so named by Sponten, a Dutch sailor, who first "doubled it" from the name of his birthplace, Hoorne, a village on the Zuider Zee.

## SAFETY.

The careless man is likely to keep his valuable papers, insurance policies, deeds and notes stored in his desk or in the bureau drawer, where they are not protected in case of fire and where they may be easily mislaid or overlooked.

The careful man avoids risk and worry by renting a

## The Foot Ball Competition.

A new feature in the list of sports was the five-a-side foot-ball matches for the championship of Vermont. The first and second gold medals to the first and second teams in the contest. There were four teams entered, Rangers, Y. M. C., Bonacords and Northfield. In the first game the Rangers went up against the Y. M. C. and were defeated. Sheriffs and Rust each getting a goal for the Y. M. C., while the best the Rangers could do was to secure a goal and a point. These were kicked by Burnett and McKenzie.

The line-up was  
Y. M. C. RANGERS.  
Robertson ..... goal ..... Kessock  
Will ..... back ..... Scott  
Summers ..... forward ..... Burnett  
Rust ..... forward ..... McKenzie  
Sheriffs ..... forward ..... McLeod  
Referee, Alex Murray. Time, 15 minute halves.

The second contest between Northfield and the Bonacords was very one sided as the score would indicate. Northfield winning with two goals and a point, while the Bonacords were unable to score. Even did all of Northfield's scoring.

The line-up was  
NORTHFIELD. BONACORD.  
Nichol ..... goal ..... Stewart  
Summer ..... back ..... McKernan  
Johnston ..... forward ..... Mitchell  
Eaton ..... forward ..... Brew  
Clark ..... forward ..... Nichol  
Referee, Murray. Time, 15 minute halves.

## The Final Struggle.

When Northfield and the Y. M. C. came on to the field for the final game there was something doing. Both teams fought hard and fiercely for the coveted medals. Northfield winning with two goals to Y. M. C.'s one. Even got the first goal for Northfield and Rust followed a few minutes later with a goal for the Y. M. C. With the score tied, the game gave promise of ending in a draw, for the first half ended without further scoring and the second half was fast drawing to a close when Clark succeeded in breaking the tie and kicking what proved to be the winning goal for Northfield. Before the Y. M. C. could again tie the score the referee's whistle blew the close of the half and the Northfield admirers carried the members of the victorious team from the field in triumph.

The first medals were awarded to the Northfield team and the second medals to the Young Men's club team.

## YELLOW FEVER IN BARRE.

Correspondent Says He Has the Stuff That May Cause It.

## Editor Times:

Any person desirous of disposing of any of their friends or any doctor that wants to increase his practice can get a bottle of yellow or typhoid fever germs by going to the Blue cess pool at Depot Square, not five steps from the platform of the Central Vermont passenger depot. Remember, none genuine except this, as this is a drain for the R. R. yard and Depot Square, and has been there for the last two or three years, after a rain.

More seriously speaking, either our city authorities are responsible for this disgrace of the C. V. R. R. It might cost \$5 or \$10 to open this plugged up surface sewer. The people of Depot Square have seen thousands of strangers when waiting for trains and walking the platform at the depot, stop and look at this filthy pond, and here is the very place that helps to form one's opinion of a town or city. This has been more noticeable since the heavy rain as the boys have riffs and old boards and blocks they use to push themselves over the pond.

A Montpelier man recently said that a prominent lady from St. Paul made a call at Barre a short time ago and remarked that it was the filthiest city she was ever in. What reply can we make to such remarks if she come by the way of the C. V. R. R. and took a 10¢ hack and went out on Main street and in dodging teams had to cross the street railway tracks a few times and made the call within the last three years.

In regard to cess-pools in Depot Square and in Main street, we see a good field of labor for our health officer.

I once heard one of the employees of the Barre and Wells Rives R. R. say to the section men: "See that our whole line is cleaned up through the city for Mr. Sortwell is coming next week and we will hear from him if it is not done."

We often notice how clean their tracks are kept and how nice it is kept about their depot. Wish God had made another Alva Sortwell for the other side. The Irishman once said to the horse buyer, when asked if his colt kicked, "O, no, she's not a real kicker, but is bad enough." This may apply to my case, but don't miss a ride on the pond if you come our way.

S. D. Allen.
